Summary

I am a junior full stack developer. In this role, I am responsible for building and maintaining web applications, working on both the front-end and back-end components. I have experience with various programming languages and frameworks, allowing me to contribute to all aspects of the development lifecycle.

My technical skills include proficiency in HTML , css , javascript , bootstrap , jquery , php , mysql , sql ,and laravel.

I enjoy problem-solving and continuously learning new technologies to enhance my capabilities

My goal is to continue growing as a full stack developer, taking on more complex projects and expanding my expertise in PHP, Laravel, and other web development technologies.
